

Nishikigoi

Premium growth

Protein: 49%
Fat: 8%
Fiber: 1,3%
Ash: 10,2%
Phosporus: 1,7%
Calcium 1,5%
Sodium 0,4%

- High protein level and low pollution
- Contains spirulina and astaxanthin
- Includes a prebiotic fiber
- Flavoured with insect meal
- Floating, feeding advice from 15°c

The protein/fat ratio is balanced to maximize the growth of your koi and simultaneously keep them in perfect shape. We included BIO-MOS® to keep your koi in excellent health and top condition. This is especially important for koi as they age. Furthermore, it contains astaxanthin and spirulina to support the colours of your koi.
